

Manx Hockey Association

PRIVACY NOTICE FOR EMPLOYEES, WORKERS, DIRECTORS AND CONSULTANTS

Background (the legal bit)

The Manx Hockey Association is registered with the Isle of Man Information Commissioner and therefore operates under the Isle of Man Data Protection Act (2018).

This privacy notice is intended to make the individual whose data you are processing aware of how their personal data is being used and what personal data relating to them is being processed. The obligation to provide a privacy notice only applies to data controllers and there is no requirement to provide one if you are only a data processor in relation to the relevant personal data. However, please note that it is possible to be both a data controller and a data processor in relation to the same personal data, so whether an organisation is a data controller or data processor for any particular processing activity will require careful consideration. A data controller is defined as 'a natural or legal person, public authority, agency or other body, which, alone or jointly with others, determines the purposes and means of the processing of personal data' whereas a data processor is defined as 'a natural or legal person, public authority, agency or other body which processes personal data on behalf of the data controller'.

So a data controller is the person that controls how the data is used and processed. For example, an employer will always be a data controller of personal data relating to its employees. A data processor is a person who processes the personal data in accordance with the instructions of the data controller. They are usually a supplier to the data controller, but not all suppliers are data processors. For example, an outsourced payroll provider will be a data processor, as they will process the payroll information they are provided with by the employer strictly in accordance with the instructions of the data controller. However, a health insurance provider providing health insurance to the employer's employees would be a data controller because, although they are supplying a product to the employees of the employer, they will decide how they use and process the personal data they are provided with in order to provide the insurance product.

Essentially the Manx Hockey Association will always be the data controller of the personal data relating to its members, its representatives and its staff/employees but, occasionally, if say it is giving presentations for or arranging workshops or training sessions on behalf of other organisations, it might only be a data processor of the personal data of the attendees/participants.
